

# ACT GOAL SHEET

1) What score would you *LIKE* to get on each ACT Section?

Write it here →

Eng.	Math	Read.	Sci.
------	------	-------	------

2) Think about how many you'll have to get right to attain this score. The general ACT curve goes:

To get a...	...while doing a FULL SECTION, you can miss roughly:	...while doing a 9 MINUTE DRILL of 15 English Qs, 9 Math Qs, 10 Reading Qs or 10 Science Qs, you can miss:
36	0% of the questions	0 questions
31	10%	1
28	20%	2
25	30%	3
22	40%	4
20	50%	5
16	60%	6

3) Before you do any section, look over the attached packet/old packets to make sure you're entering the section knowing "OK, THIS is what I'm going to remember to do..." Make sure you're not making the same mistakes as last time!

4) Set your goal in the grid below and do your timed section!

5) After time is up, score yourself, then fill out the below grid, writing down notes to remember for next time!
